Kjetil Sunde, Norway
Paul Swindell, UK
Caroline van Heughten, the
Netherlands
Lionel Velly, France
Barbara Wilson, UK
Gisela Lilja, Sweden
Tobias Cronberg, Sweden
Hans Friberg, Sweden

WELCOME TO LUND!

Welcome to the fourth international symposium on post cardiac arrest care focusing on neuroprognostication, cognitive follow-up, health-related quality-of-life and rehabilitation after cardiac arrest.

The symposium will be a two-day event, with an update on neuroprognostication on day one, and presentation of novel follow-up and rehabilitation data on day two.

A separate course on simplified continuous EEG (aEEG) will be held the day before.

The target audience is all professionals engaged in the care and follow-up of cardiac arrest survivors and their relatives! We thus welcome registered nurses and physicians within relevant specialties like critical care medicine, cardiology, neurology and rehabilitation medicine as well as occupational therapists, physiotherapists and psychologists.

Very welcome to Lund in 2019!

Tobias Cronberg, Hans Friberg, Gisela Lilja
Center for Cardiac Arrest, Lund University
